

DRIVE SHAFT COVERS TO BEARING STAND MOUNTING BRACKET KIT

This kit provides the components to attach a metal drive shaft cover to a bearing stand.

1. Assemble drive shaft covers brackets (1) to bearing stand using a 5/16" x 3/4" carriage bolt, lockwasher and nut.
2. Fasten metal drive shaft cover (2) to brackets (1) using self tapping screw and flat washer.

If there are problems assembling the components provided in this kit, please contact us for assistance.
